

# Gratitude Challenge for 2020

- For teachers, parents, and any professionals who work with students who have autism or other learning challenges
- Included:
  - Printable BINGO board for students. This is in color and BW.
  - Printable BINGO board for teachers.
    - This has clickable links if the square has an activity you need to access.
  - The **digital version of the BINGO board** for students  [CLICK HERE](#) 
    - You can assign this board to each student in google classroom.
    - There are moveable “chips” students can use to cover squares as they finish the activity.
- Suggestions
  - When assigning an activity to your students, refer to the number in the top left corner of their board. That way they can find the correct space without needing to read what is in the space.
  - There are lots of ways you can assign “BINGO” to your students. Adjust to what will work best for your kids.
    - Cover the entire board
    - Complete a row
    - Cover all even numbers
    - Cover all odd numbers
    - Cover numbers 1-10
